A plan of the proposed new dock for Kowloon has been in the hands of the Hongkong Government for several weeks. It is understood the question of the sale of land for the proposed site is still open. It is confidently expected that the present Acting Governor, General Gascoigne, will not allow the conflicting ciation of the War and Columnai Offices to stand in the way of the settlement of a matter which is one of great importance not only to this Company but to the Colony generally, and that he will very shortly bring this long debated matter to a conclusion satisfactory to all

Chine and The Coronation The Peking correspondent of the N.

O. Daily News writes :- The Special Envoy to England to attend the corenation of time the Empuror received lessons. He is like his father in being a mild, moffensive person; but is probably as atrong as any in the present Nobility. There was talk for some months of sending Prince Su, who. is one of the eight hereditary ironcapped Princes, and one of promise and energy. but his ability made it necessary to rotain him in Peking. Since Prince la retired from active service owing to failing health, there has been no one among the Princes to be placed at the head of affairs except Prince Ching. Prince Su may be regarded 845 p.m. and 9 p.m., 9.45 p.m. to 11.15 as second in importance and ability. He is one of the Grand Chamberlains, and may be appointed to the Grand Council, as Prince Ching is head of the Foreign Office. Concerning the future, there is more likelihood that the son of Prince Ching will attain to eminence than one of the younger brothers.

The Second Audience.

The Peking correspondent of the N.-C. Daily News wrote on the 28th all :-

To-day all the Diplomatic Boly, representing Austria, the United States, Gormany, Great Britain, France, Russia, Spain, Italy, Portugal, Belgium, Japan, and Holland, had audionce with the Emperor of China. In the audience hall they stood in three rows, the Ministers in the front mw, the secretaries next, and the interpreters and military commanders in the third. The doyen, the Austrian Minister, read afitting speech referring to the troables of the year 1900, and the pince negotiations of 1901, and pointing out that the resumption of relations with His Majesty was the culmination of peace.

THE EMPEROR referred to the breaking-off of relations and to thedeparture of the Court caused by the uprising of the Boxers, and expressed the hope that now the Court had returned peace might be lasting. The Ministers nextapproached

A POWERLESS EMPEROR. There is a growing impression that the Emperor has really no power to rule, through mental and physical decline, and that it is best that the Empress Downgor should rule. There are others who speak most positively, and who say the Emperor has still a strong mind, but that the Entpress Downger forbids him to my anything and threatens bim if he utles any views confirm to her own. It is a notleeable thing that the Emperor has shows great selfpossession in closing his mouth and waiting or returned authority during the last three years and more. He has not had one single friend near him with whom he
